TS1 – Log In / Sign In	I. Logo II. School Name (Text) III. Faculty ID and Password IV. Forgot Password V. Sign In VI. Quick Access	I. Centered II. Centered III. TextBox IV. Text Left V. Button VI. Fingerprint (Biometric Authentication)	I. Shown II. Highlighted in green then Bold and Visible. III. Can be filled up in the box/field for credentials. IV. Will open a new tab for changing password. V. Can be pressed and proceed to Main Dashboard of the Application.	**Landing Interface** 	**Passed**	The **Forgot Password tab** is still on process...

			VI. For easy access to the application just like our fingerprint lockscreen.			
TS2 – Main Dashboard	I. Burger Icon II. Bell Icon III. Settings Icon IV. Ongoing Class V. My Courses (teacher enrolled courses)	I. Top Left Side II. Top Right Side III. Top Right Side IV. Card Layout with Button V. Card Layout and Buttons (scrollable)	I. Can be pressed and it will show the Navigation Bar/Tabs. II. Can be pressed and it will show notifications. III. Can be pressed and it will bring you to the settings. IV. Will show the teacher for his/her current class and it will show the **Subject**, **Room Number** and **Building**, **Time Schedule**, and lastly can start/check the **Attendance**. V. Can check the lists of enrolled subjects and can scroll down for more subjects under. Also, you can see the **Subject**, **Room Number** and **Building**, **Date Time Schedule**, and additionally can check the **Attendance** and **Grades** of the Students.	**Main Dashboard** 	**Passed**	All buttons are clickable, but the **View Semester** text is still on decision what to show/do.

TS3 – Navigation Bar	I. Profile Picture II. Name III. Faculty ID IV. Dashboard V. Schedules VI. Grades VII. Attendance VIII. Logout	I. Top Right Side, Profile Picture Holder II. Top Right Side, Text under the Profile Picture III. Top Right Side, Text for ID IV. Icon and Text (aligned) V. Icon and Text (aligned) VI. Icon and Text (aligned) VII. Icon and Text (aligned)	I. You can see your profile picture, and you can press it to enter Faculty/Teacher Profile settings where you can modify your profile such as **sharing your account link**, **general settings**, **security**, and a **log out** button in case. Also, you can check your title there, for role and department. II. Pressable and can enter Faculty Settings where you can check your name also. III. Pressable and can enter Faculty Settings where you can check your faculty ID also. IV. The **Dashboard** tab can be pressed or where we	**Navigation Bar** 	**Passed**	V. Is there a button to add your own plot schedules for your class for the semester? And add a sorting of subjects to avoid crowd looking. VI. Open for suggestions about what to add for more detailed student's analytics.

		VIII. Icon and Text (aligned)	touch outside the Navigation Bar. V. The **Schedules** tab, when pressed will enter to a new tab where you can check the calendar and the lists of activities you plotted and school calendar of activities. VI. The **Grades** tab, when pressed, will enter a new tab where you can choose the subject you handled and show the lists of students enrolled, their ID's and you can input their grades for prelim, midterm, semi-finals, and finals. Then automatically calculate it for you. You can also search for the student using the search tab to track it immediately. Lastly, a button to Finalize the Grades. VII. In **Attendance** tab, there is a calendar to check the day and date then you can check the attendance of your students there if they're present or absent.	**Faculty Profile Settings**  		

			You can also use the search bar for easy tracking of the students or just alphabetically scroll it down while checking their attendance. In attendance we had **legends P** for **Present**, **L** for **Late** (where you can use the search bar for that), and **A** for **Absent**. And we had a button featuring **Mark All Present** if you feel generous at the moment haha. And on the upper left where you can change the subject. And in attendance the **Name** and **Student ID** are visible. VIII. The **Logout**, if pressed it will just go back to the landing interface in Log In / Sign In.	**Schedule Tab**  		

				Grades Tab  		

				Attendance Tab  **Logout** 		

Soon to be filled
